Data taken from Census files January 2000 CPS data from FERRET.

Name: _____

Date: ____/____/____

Worksheet A (Student Version)

1. How many teenage births were there in January 2000?
2. What is the distribution of teenage mothers by race/ethnicity? Use a graph/chart to answer this question.
3. What is the distribution of births by birth weight? Use a graph/chart to answer this question.
4. In a short paragraph describe the data that you see in the table titled Age of Father and Age of Mother.

5. Place states in rank order from highest to lowest by number of teenage births.

6. Which state has the biggest problem with teenage births? If you were in charge of deciding which states needed teenage pregnancy prevention programs and you were allowed to select only three, which states would you select and why?

7. List at least three reasons why different states have such different numbers of teenage births.

Name: _____

Date: ____/____/____

Worksheet B (Student Version)

1. Which state had the highest teenage birth rate? Which state had the lowest teenage birth rate?
2. Place states in rank order from highest to lowest by teenage birth rates.
3. Which state has the biggest problem with teenage births? If you were in charge of deciding which states needed teenage pregnancy prevention programs and you were allowed to select only three, which states would you select and why? Is this the same answer that you had for task 6 in Worksheet A? What additional information would be helpful in making your decision?

4. Identify which information would be needed to answer the following questions:

a. Where should a teenage pregnancy prevention program be located?	Count	Rate	Both	Neither
b. Was a teenage pregnancy prevention program successful?	Count	Rate	Both	Neither
c. Is watching R-rated movies associated with teenage births?	Count	Rate	Both	Neither
d. Which ethnic group has the most teenage births?	Count	Rate	Both	Neither
5. Assume that you were a (insert your role here) and wanted to create a five-colored map showing the distribution of teenage birth rates across the country. Use the blank map provided to create the colored map.
6. Can you think of three reasons why the top three states have such high rates?
7. List five things that can be done to reduce the rates in those three states.
